**Ufd110. Paddock Wood (8.7 ha) TL 537430**

Little information is currently available for this ancient wood. The canopy and understorey appears to be typical of the area, being a mix of Pedunculate Oak (*Quercus robur*), Ash (*Fraxinus excelsior*) Field Maple (*Acer campestre*) and Hazel (*Corylus avellana*). Part of the wood has been coniferised.

Date of selection/last revision: 1994
