Ufd266. Hempstead Wood (69.4 ha) TL 655385

This large ancient wood is now actively managed for timber production, including extensive plantations of Corsican Pine amongst Ash (*Fraxinus excelsior*), Hornbeam (*Carpinus betulus*), Pedunculate Oak (*Quercus robur*) and Hazel (*Corylus avellana*). The ground flora is very diverse, being particularly rich along the wide internal rides.

Date of selection/last revision: 1994
